

Diagnostics, Reinvented Anywhere. Anytime.

Diagnodes by Abrates is an online, network-based diagnostic solution that gives automotive professionals dealership-level capabilities without the dealership-level limitations. It works entirely through the internet, requiring no dedicated hardware - you can use it on a laptop, tablet, or even a smartphone.

Connect to the car via a basic Ethernet cable, the MODI Bluetooth device, or an affordable Passthru device - no expensive tools needed.

HOW IT WORKS:

Installation takes just minutes. The interface is simple and intuitive.
